

15 Data Handling

Tune In

Name	Number
Salma	   
Kartik	  
Arnav	       
Key:  = 1 fish	

Let's Try

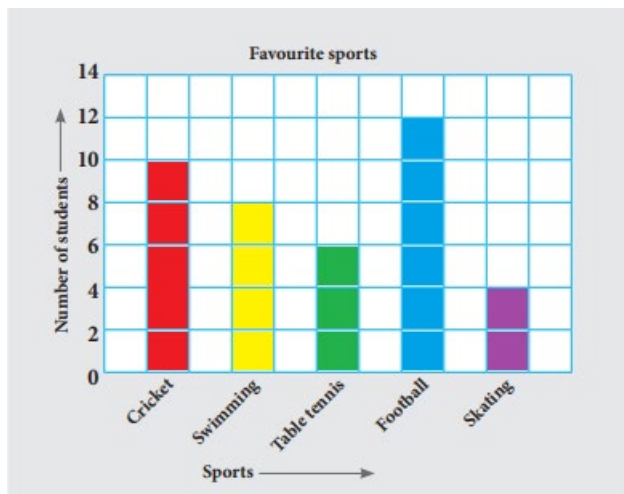

1. Popular TV programmes
2. Number of people interviewed = $30 + 70 + 50 + 70 + 40 + 60$
= 320 people (**Ans**)
3. News and Serials have maximum viewership of 70 each.
4. 50 people watch science programme and 60 people watch cartoon show.
5. 70 people watch news on TV.
6. 30 people watch the Breakfast show.

Exercise 15A

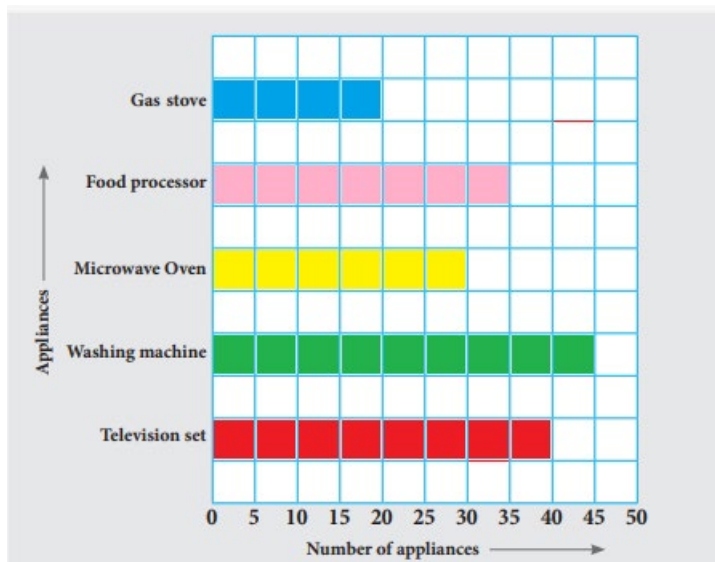

- 2.a.** Number of students asked = $14 + 8 + 12 + 12 + 6$
= 52 students were asked about their most favourite fruit.
- b.** Apple is the most popular fruit among students. 14 students liked it.
c. The least popular fruit is watermelon. Only six students like it.
d. Orange and bananas are each liked by 12 students.
e. False.
- 3.a.** 55.
b. Cartoons are like by most students. 14 students like it.
c. News. Only six students said they like it.
d. Nature channel is liked by more students than Sports channel.
e. Eight students like Music channel.

Application Based Questions

4.

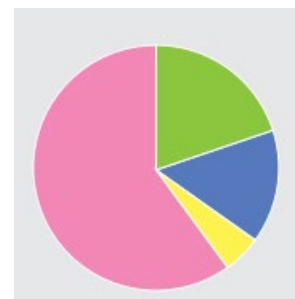

5.

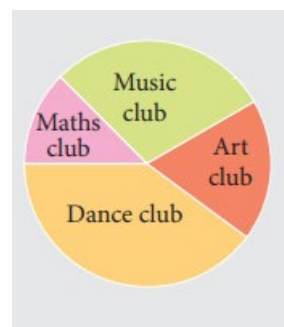

Exercise 15B

- 2.a. Blue is more popular.
b. Pink is the favourite colour of most students
c. Yellow
d. Blue is less popular than green.

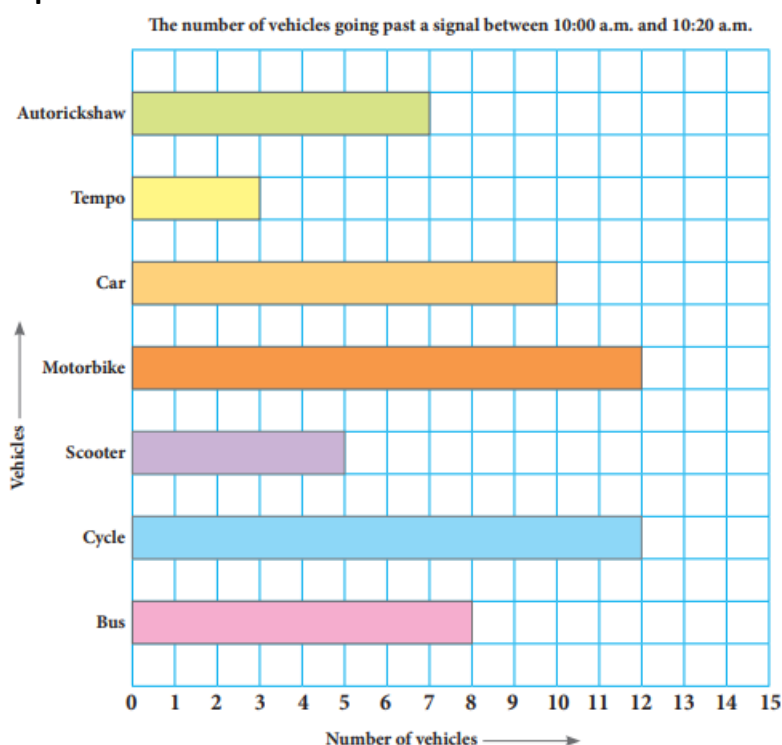

Application Based Questions

- a. True
- b. False
- c. False
- d. True
- e. False

Revision Exercises

Start Up

- 1.a. The number of scooters that went past in the 20 minutes = 5.
b. Eight buses went past in the 20 minutes.
c. Seven more motorbikes than scooters crossed the signal.
d. The total no. of cycles and tempos is 15.
e. The total number of vehicles that went past was 57.
2. a. **Data** A collection of facts such as number, words, measurements, observations, etc. is called data.
b. **Circle graph** A circle graph is a circular chart in which the circle is divided into parts to show and compare information as in bar graphs. It is also called a circle chart or pie chart.

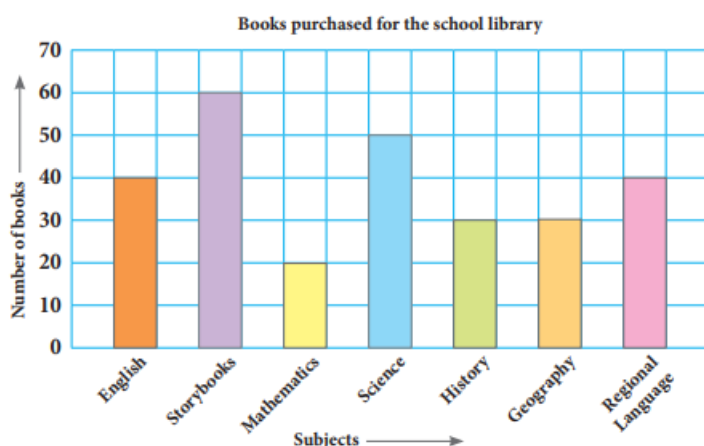

3.

- Most number of students like cricket.
- The second most favourite sports is football.
- The least number of students like baseball.
- More than half of the students like cricket.

Level Up

1.

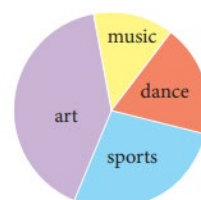

- Altogether 270 books were purchased.
- 60 storybooks were bought.
- The same number of books were bought in English and regional languages (40 books) and History and Geography (30 books).
- Mathematics (20 books).

2. a. Art activity has most number of students.

b. Music has the least number of students.

c. Dance is more popular than music.

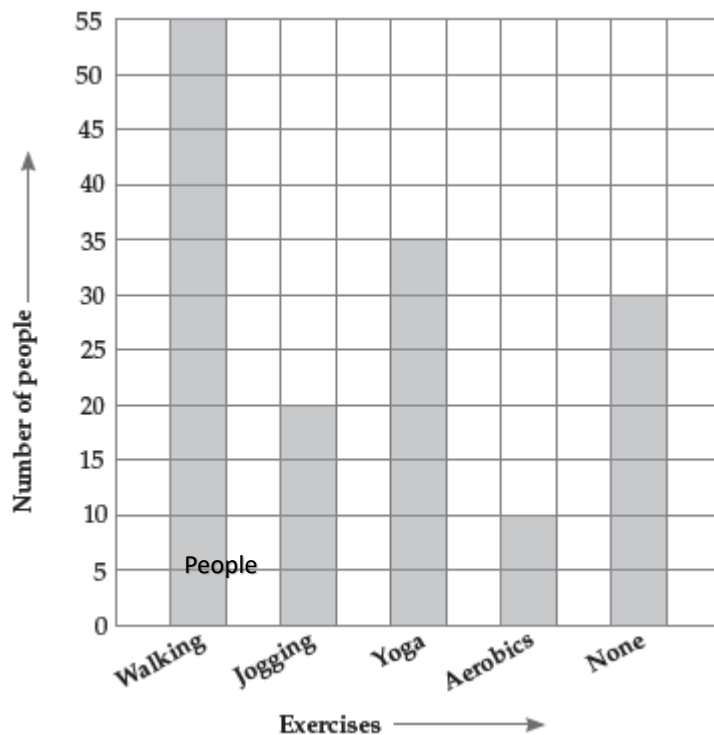

3.

Subject	Marks
English	$6 \times 10 = 60$
Mathematics	$8 \times 10 = 80$
Languages	$6 \times 10 + 5 = 60 + 5 = 65$
Science	$5 \times 10 + 5 = 50 + 5 = 55$
G.K.	$4 \times 10 + 5 = 40 + 5 = 45$
Total	305

- Susie scored the highest marks in Math, that is 80.
- She scored 100 marks in Science and GK.
- She scored 5 more marks in Language than English.
- Her total marks in the first term are 305.

4.

Hots Questions

- 1.a. The strength of the school is 91 students.
- b. If the number of people shown for each bar increases ten times than we can increase the scale of the graph also ten times. In that case each square instead of representing 2 person can be shown to represent 20 persons. So the figures on the horizontal axis become 0, 20, 40, 60 and so on.

Cross-curricular connect

- 1.a. Rohan's monthly fees is $\text{Rs } 36,000 \div 12 = \text{Rs } 3000$.
- b. Rs 8,000 is spent on uniform.
- c. Rs 76,000 is spent on various school-related items in all.
